# Market Review

# Market Review

## Singapore Retail Market

- Singapore retail sales remain under pressure as retailers navigate rising costs and e-commerce competition. Nevertheless, the outlook for 2025 remains optimistic, supported by easing inflation and a rebound in tourism, which is expected to bolster retail activities.
- Demand for prime retail space is expected to strengthen further with upcoming meetings, incentives, conferences and exhibitions (MICE) events and concerts. In the first three months of 2025, the retail market saw strong leasing demand mainly driven by F&B operators.
- Retail rents are projected to return to pre-COVID-19 levels supported by limited new supply in the coming years.

## Singapore Office Market

- Islandwide vacancy rate increased to 5.9% in Q1 2025 from 5.2% in the previous quarter driven by the uncommitted spaces in the newly completed projects, Keppel South Central and Paya Lebar Green.
- Leasing demand saw a measured increase during the quarter driven by the expansion of financial firms and co-working operators.
- Despite promising rent growth in Q1 2025, an economic slowdown may weaken confidence, leading to postponed market expansion plans and an increased focus on lease renewals.

## Milan Office Market

- According to the preliminary estimates by the Italian National Institute of Statistics, the consumer price index in March 2025 increased 0.8% YoY and 0.4% from the previous month.
- In Q4 2024, Milan's overall office vacancy rate was 10.1%. Within this, the Periphery area, home to Sky Complex, recorded a vacancy rate of approximately 15.7%.
- Beyond 2025, location will remain a key factor in office space demand. Limited availability in central areas is expected to drive rental growth for both prime and secondary properties. Due to this scarcity, tenants are increasingly opting to stay in existing spaces, benefiting from landlord-led refurbishments and upgrades rather than relocating.

# Additional Information

## Important Notice

This press release is for information purposes only and does not constitute or form part of an offer, invitation or solicitation of any offer to purchase or subscribe for any securities of Lendlease Global Commercial REIT (“**LREIT**”) in Singapore or any other jurisdiction nor should it or any part of it form the basis of, or be relied upon in connection with, any contract or commitment whatsoever.

The value of units in LREIT (the “**Units**”) and the income derived from them may fall as well as rise. Units are not obligations of, deposits in, or guaranteed by Lendlease Global Commercial Trust Management Pte. Ltd. (the “**Manager**”), DBS Trustee Limited (as trustee of LREIT) or any of their affiliates.

This press release may contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar developments, shifts in expected levels of property rental income, changes in operating expenses, (including employee wages, benefits and training costs), property expenses and governmental and public policy changes and the continued availability of financing in the amounts and the terms necessary to support future business.

An investment in Units is subject to investment risks, including the possible loss of the principal amount invested. Holders of Units (“**Unitholder**”) have no right to request the Manager to redeem or purchase their Units while the Units are listed. It is intended that Unitholders may only deal in their Units through trading on Singapore Exchange Securities Trading Limited (“**SGX-ST**”). Listing of the Units on SGX-ST does not guarantee a liquid market for the Units.

This press release is not to be distributed or circulated outside of Singapore. Any failure to comply with this restriction may constitute a violation of United State securities laws or the laws of any other jurisdiction.

The past performance of LREIT is not necessarily indicative of its future performance.
